YOUTH@GMS

Dear Parents,

As the school year for our students is fast coming to a close, I wish to take this opportunity to express my deep appreciation and gratitude to each one of you. Your constant support and feedback has allowed us to reflect and maintain our excellent standards throughout the year.

"Nothing in the world can take the place of persistence. Persistence and determination alone are omnipotent. The slogan 'Press On!' has solved and always will solve the problems of human race."

- Calvin Coolidge

**STUDENT LIFE**

Our students get involved in several initiatives that enhance their leadership and organizational skills, all while having fun and making friends for life.

We provide an inclusive learning environment, with teachers and support staff who engage with students on both academic and GMRC (good morals and right conduct) levels. Teachers provide personalized teaching and individual care that enables curiosity, creativity and innovative

thinking. Children are encouraged to ask questions, to investigate, and clarify doubts with the guidance of our teachers.

**GLOBAL CITIZENSHIP**

I think it is important to celebrate diversity in every way. 'Bhinneka Tunggal Eka' ideology of Indonesia sends a universal brotherhood message to the world. At GMS, we are comprised of different cultures, backgrounds, beliefs and personalities. We celebrate our differences. The process of learning about and exploring different cultures is what can truly allow us to become global citizens.

The Sanskrit phrase 'Vasudhaiva Kutumbakam' means "The whole world is one(my) family" encapsulates interconnectedness of all beings.

At GMS we are passionate about many values that are a priority to make our world a better place. For example we are using UN Global Goals for Sustainability as a platform to launch deep and meaningful learning experiences in our students from grades 1 to 12. You will see the work being done on Sustainable Development by our students in the following pages of this newsletter. They are becoming critical thinkers and focus on problem solving.

We are all very proud of the children you have entrusted under our care. As parents, you should feel incredibly proud of their achievements and how they represent their families and their school on a daily basis. Working together, parents and teachers strengthen in our children the values of simple living and high thinking with zero plagiarism.

Thank you once again for your ongoing support as GMS continues to move forward.

Yours sincerely

A.P. Singh  
Principal

IMPORTANT DATES (April – June 2023)

Talkx Youth@GMIS, a TED-like experience, a program where the Middle School students of GMIS Jakarta come together to share their thoughts on life. After several auditions, students were chosen to speak in front of an audience, and their talks were all equally unique; each with different experiences and different ways of viewing the life that is coming up and blooming for them. These stories have inspired many young students and teachers. This event encouraged students to be more expressive of their thoughts and gave them a chance to convey their interesting thoughts and ideas about various topics of their interest which also displayed critical and creative thinking skills and imagination.

Talkx Youth@GMIS provides an opportunity and platform for students to build confidence, become better communicators. It also allowed the young minds to be more candid and genuine towards the world and help them spread their ideas which may have a great impact or inspire people.

A wonderful learning experience which builds and enhances speaking style, stage presence helping children become more eloquent.

SDG : Sustainable cities and communities Topic: Suburban Sprawl. Presented by : Gurtaj, Ranveer, Karika and Yashika (6C)

SDG : Life on Land - Topic: Uncertain Future of Humans. Presented by: Sanvee, Mohit, Kingston & Swayam (6C).

# Grade 4 visits The Highland Park Resort, Bogor

We, the grade 4 teachers and students, went to the Highland Park Resort, Bogor on the 5<sup>th</sup> and 6<sup>th</sup> of April, 2023. The purpose of the field trip was to learn certain life skills such as organizational skills, being responsible and working collaboratively with the group. We were engaged in many activities like swimming, cooking, team building games, flying fox, archery and so on. These activities helped students to make memories which they will cherish throughout their lives. It also helped students to mingle with others and make new friends. Over all, it was a wonderful trip with a lot of learning happening in different ways.

Alone we can do so little; but together we can do so much

Bull's eye

Balancing is the key.

Making waves and memories that will last a lifetime

Bulldozer game where effort and teamwork meet.

Facing our fears and being a risk taker.

Penning our thoughts through reflection.

Trying to be good listeners

Success is best when it's shared.

Let the sizzle and spice begin

IB PYP EXHIBITION

Grade 4

The Grade 4 Exhibition was held on the 17th April 2023 and this year our students explored the 17 UN Sustainable Development Goals. Through these goals they demonstrated their thoughts, actions, passions and creative ideas by making their models, posters and brochures. They developed their approaches to learning skills like research skills, thinking skills, creative skills and social skills. The process and the exhibition journey was a great learning and enriching experience for our students.

Mr. A. P. Singh, our Principal who has always been a source of inspiration, inaugurating Grade 4 exhibition on 17<sup>th</sup> April 2023 on the theme of the 17 UN Sustainable Development Goals.

Our grade 4 students - Taking small steps for bigger goals. Presenting a song on SDG for their exhibition.

Shirin, Priya, Sharon, Elysia and Tran Bao exhibited their model on Life Below Water

Atikksh, Vihaan, Crescentius, Inki Choi and Fares presented their understanding on Affordable and clean Energy which is the key to development.

Aliif, Tristan, Jooye Lee, Salma and Aimee displayed their understanding on Industry, Innovation and Infrastructure. They believe that it is very important to bring innovation in industries and infrastructure for future development.

Mihika, Ammayra, Rishita, Zainab and Prisha inquired into Animal Abuse.

Divyansh, Leila and Haren presented their model on "Saving Lives, Preserving Species: Combating Animal Abuse and Extinction Together". They urge people to make informed and wise choices.

Ananya, Ayan and Soumava presented on "Reduce, Reuse, Recycle, Refuse, Rethink, Repair: Our 6Rs for a Cleaner Future and Less Pollution"

Lakshya, Prajesh and Sanghavi showcased their understanding on "Equality Has No Gender: Empowering All Genders for a Fair and Just Society"

Mayank, Violette, Bao and Maximillian developed a model on how we can attain the goal of Zero or No poverty stating "From Poverty to Prosperity: Bridging the Gap for a Better Tomorrow"

Gender equality - 'Gender equality is a fundamental human right that everyone deserves and we all have a role to play in promoting the same'- was the message given by Shezreen, Anaya, Shania, Charvi, Sreesha and Amayra.

Quality Education - 'Education is a right, not a privilege'- A slogan which Reia, Karan, Jasmita, Rohan and Pratham gave to demonstrate their thoughts on this issue.

Life on land - 'A flourishing life on land is the foundation for our life on this planet' was the message given by Edrick, Aarav, Sridatta, Sultan, Chan Woo Lee and Nathan.

Life below water-'Let's all be responsible and take care of our oceans and other water bodies by reducing water pollution' was the message given by Alessandra, Olin and Gwenda.

Gender equality for Sustainable city (Access to services, opportunities, education, decisions making) - French. Sahasra (4C), Sharan J. (4C), V. Jina (4A) and Karthik R(4D)

Shaivi, Chloe, Audrey and Sharvani, shed light on the many issues surrounding animal welfare and inspired everyone to make positive changes for the betterment of animal welfare.

Clean water and sanitation - Seung Oh, Ethan and Sang Hyeon explored the vital role that clean water and proper sanitation play in our daily lives.

Gavin, Angello, Hrehaan and Axel presented their topic 'Quality Education' and talked about the importance of education and inspired everyone to embrace learning as a lifelong journey.

Good Health and Well-Being: Aashi, Vanshika, Rudra, Raabia and Radha explored the benefits of exercise and healthy eating to learn about mental health and mindfulness.

Healthy Foods & Sports (SDG: Good health and Well-being) Cai Yu Shan(4A), Eleanor Phan(4D) and Jayden (4D)

## Grade 7 visits Bandung

To become global citizens, students must experience holistic development during their school years, and this is done in GMIS through field trips as giving equal weightage to both indoor and outdoor activities is what makes children well prepared for the real world.

After a break of two years due to Covid, the school planned an overnight field trip to Bandung for the students of grade 7. The children were ecstatic knowing that they would be traveling by train to Bandung and despite the early hour, all reported to the train station at 4:00 am accompanied by equally excited parents. The train journey was a wonderful experience for the children as for many it was their first time. Bandung was a respite from their daily school routine and the visit to Trans Studio made the trip more exciting. Their happiness knew no bounds as they had free access to all the rides inside the studio. It was a pleasure to see the children so happy and socializing with one another. After the rush of adrenaline, the children were happy to settle down for a quiet dinner. A few team games were arranged which they all participated in, and some musically inclined children sang and entertained the group afterwards.

Day 2 was equally packed and exciting as the children left for Museum Geologi straight after breakfast. The museum was a treasure trove of

knowledge for the children. From studying the skeletons of many animals to admiring a variety of crystals found in Indonesia, many students were seen taking down notes of things that interested them. Outside the museum there was a section which boasted of a galore of animals. The animal lovers made a beeline for that area and loved spending time with rabbits, parrots, and iguanas.

The next place to visit was the Floating Market, an amalgamation of beautiful greenery and flowers in a picturesque setting. The children enjoyed the boat rides and the rainbow slide and a quick lunch at the Floating Market. Soon, it was time to go to the train station. The trip back was quieter as the children were sad the trip was coming to an end.

The trip definitely instilled in the students a sense of responsibility and independence as they learnt to look after their own belongings, unpack and pack their own baggage and most importantly in interacting with one another and making new friends. The trip ended with a renewed enthusiasm to attend school the following day, accompanied by a sense of satisfaction and comradeship.

Kavya Asvalayan (7A)

A volley of knowledge about our planet Earth in Museum Geologi

All aboard! The first leg of the journey, train to Bandung

Getting to know the Earth

Glimpses of empathy for animals

Together in the Floating Market.

## Grade 2 visits Taman Mini - Transport Museum

Grade 2 as a part of their Unit - Journeys and Moves under Transdisciplinary Theme: 'Where We Are In Place and Time,' went for an exciting Field Trip to Taman Mini-Transport Museum on April 12, 2023. Students displayed curiosity and excitement as they learnt about different means of transport and how they have evolved with time.

It was indeed interesting to watch children ask questions about the various transports. They enjoyed the train ride which was both enjoyable and a wonderful learning experience for everyone.

Field trips always enhance children's learning and build better understanding encouraging them to think critically and creatively. This also helped them understand various innovations in the field of transportation.

A fun-filled day with a lot of learning.

Young explorers

Reading, observing and discussing

Curious young learners

Enjoying while exploring the various modes of transportation such as air, water and land transport

We learn when we listen and observe

Students were enthusiastic and interested to see the various modes of transport and the new technology used

Excited to know about the various modes of transport.

Busy noting down the important information.

Busy inquirers trying to find out how people commuted in the past.

The future is now, and we are ready for it - a display of Advanced Air Mobility.

## Grade 1 visits The Kidzania

As part of the tuning in activity of our Unit of Inquiry about Number Systems under the Transdisciplinary Theme ‘How We Organize Ourselves,’ Grade 1 went on a field trip to Kidzania on 15th February 2023. They gained valuable hands-on experience while role-playing various community helpers. They learnt about the places of work, tools and special costumes of people who help us. They had an engrossing time there and learnt that community helpers work to earn money to survive and in return provide important services to help others in their community around them. They learnt to make independent choices, be responsible for their belongings, and work as a team in some role play activities.

This field trip provided valuable lessons in good citizenship and students became appreciative of various community helpers who go by unnoticed in our daily lives. They were also exposed to and explored a variety of job opportunities available in the community. They were able to explore systems around them and also were able to identify different communities they are a part of. They developed social and organizational skills.

It was a great learning experience and a fruitful field trip.

We are rich... We got money to spend.. Hurray!!

Little firefighters in action ...

A good day spent baking at Kidzania.

Listening carefully about good dental health...

We learnt to make delicious chocolates ourselves.

Everything is theoretically impossible until it is done

We are being trained to be good policeman.

The conservators of art.

It is an emergency and we have to act fast.

Hands on experience - first aid rescue procedure

## THE PYP TALKX JUNIOR

“Light travels faster than sound. That’s why certain people appear bright until you hear them speak”.

- Albert Einstein

The PYP TALKX Junior@GMIS was held on the 23rd of February 2023. This was an event which helped to mould sensitive minds with the sole purpose to spread ideas that can inspire and motivate the audience. We initially started with 178 students and through a tedious selection process our 8 speakers were chosen. The TALK X Junior gave our students the opportunity to form connections, influence decisions and motivate change. It also allows our students to gain an understanding of social factors that influence their thinking. This activity has empowered the students to overcome their fears. It has improved their listening skills and communication skills and it has also helped them to voice their opinions and influence others.

EMCEES :

Colleen (5A) & San Bich Hoang (5D)

ALIIF SIREGAR (4A)

Words by Bee Gees sung by Jocelyn (5A), Lekisha (5C), San Bich Hoang (5D) and Colleen (5A) to conclude the event.

**EDUCATIONAL FIELD TRIP TO ART MUSEUM**

Grade 11D - A visit to a museum is a search for beauty, truth and meaning in our lives.

Titled 'Inside Outside' this piece is made from windows collected after the fall of the Berlin Wall.

The deconstructed human body conveys a detachment from one's own self.

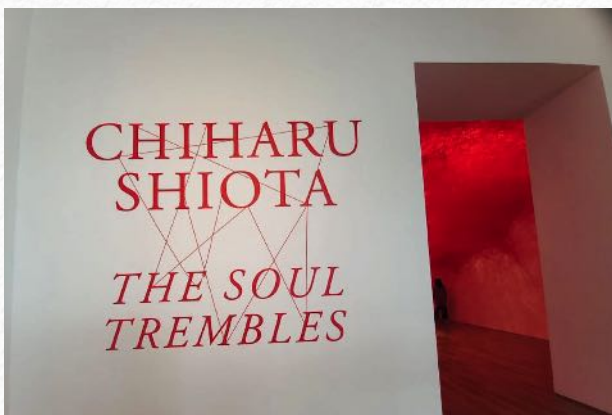

The field trip to Museum MACAN, showcasing "Chiharu Shiota: The Soul Trembles" presented the opportunity to appreciate around 100 of Shiota's works in the form of sculptures, video performances, sketches and large installations. The vulnerability and rawness of the human journey displayed using soul-trembling emotions, helped students reflect on their own lives. This visit truly opened up the students to a creative, all-encompassing experience leaving enough food for thought.

After beating cancer, Shiota created this piece, 'Out of My Body.'

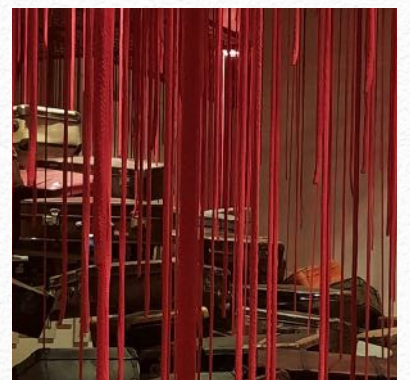

In 'Connecting Small Memories' miniature objects become witnesses of her life's journey.

Questioning universal concepts like identity, existence, Shiota's work made every visitor's soul tremble.

'In the Hand' at the entrance, captures the entire exhibit's essence.

The hovering suitcases of 'Accumulation - Searching for the Destination' store the memories of wanderers.

**IB PYP EXHIBITION**

**Grade 2**

Grade 2 through their Annual Exhibition explored United Nations Sustainable Development Goals. Children displayed understanding of global concerns and showed how they would make an effort to act locally to make a difference. Our dear Principal Mr. A.P. Singh inaugurated the exhibition. Grade 2 sang the song "Earth! We are in it together" to motivate and encourage everyone. It was indeed a kaleidoscope of creativity, imagination, knowledge and lots of hard work. The students spoke eloquently. The presentations were effective, clear and students displayed great thinking and organizational skills. The Exhibition was highly commended by our Principal. The efforts of students, parents and teachers were appreciated.

Our Principal, Mr. A. P. Singh inaugurating the Exhibition.

SDG- 3 GOOD HEALTH AND WELL-BEING  
TOPIC - Ensuring Good Health for All  
Aradhya, Advik, Vihaan and Divyansh (2A).

## GMIS PRIMARY SCHOOL "MATHEMA 2023"

"For some youngsters, athletic activities provide an outlet for excess energy; for others, it may be music or, perhaps, chess. There are, however, a surprisingly large number of youngsters for whom solving mathematical problems plays this role."

Source: UNESCO Digital Library, Studies in Mathematics Education Volume 6- Edited by Robert Morris

The Primary year's Math Olympiad "Mathema 2023" took place on the 10th of March as a class activity for grade 1 to 5. The primary school students participated enthusiastically and displayed their understanding of the mathematical concepts covered in each year level. This Math Olympiad is an activity aimed at enhancing students' confidence and interest in Mathematics.

The Mathematicians of Primary School putting in their knowledge and skills to do their best in the 'Math Olympiad'

## GRADE 5 FIELD TRIP TO IMERI FKUI

**E**xcited and enthusiastic students from Grade 5 visited the IMERI FKUI for an educational field trip on the 8th and 9th of February, 2023. This was in connection with their unit under the TD theme 'Who We Are.' They were inquiring into various changes that occur as we grow and learning about the human body systems. The students improved their knowledge, observational and self-management skills as they keenly viewed a variety of artifacts and 3-D models related to the human body. The informative displays sparked their curiosity and elicited many questions from them. They participated in interactive games to deepen their understanding and viewed a movie about how this first institute of medical education and research in Indonesia was started. It was a very thought provoking and engaging experience for the students.

All set for a new learning experience at the hallowed portals of the first medical education and research institute in Indonesia.

Taking a break on the steps to soak in all the information given and gathered.

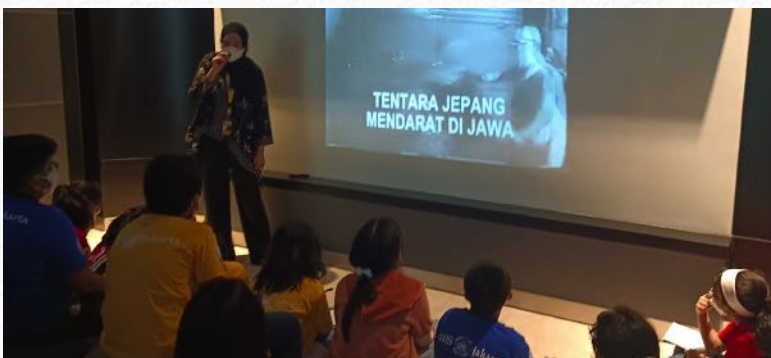

Displaying their wonderful listening skills and asking questions in the lecture room.

There is nothing that can spark your curiosity like experiential learning

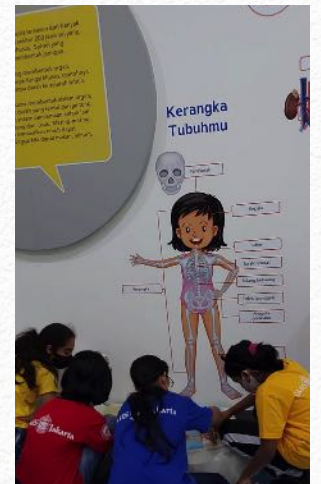

Inquisitive minds at work: exploring new perspectives through observation.

Watching a movie to get a glimpse of the past

Students recording their observations in their journals.

Students excited and eager to learn through a variety of interactive games.

## VISIT TO LOVELY HANDS COMMUNITY

*'Do your little bit of good where you are; it's those little bits of good put together that overwhelm the world.'*

- Desmond Tutu

Grade 6 students and teachers of GMIS visited Lovely Hands Community Center, Sunter on Tuesday, 22 November 2022. This visit was a part of their Community Service Project. The grade 6 students donated toys, stationery and candies to the less privileged children

at the Community Center. Some cash and few grocery items were also donated by the teachers. Besides donating things, our students sang two songs that brought smiles on the children's faces. This visit was an opportunity for us to make our students feel and understand how difficult life is for some people. They will learn to appreciate what they have. Interaction with the mentally and physically challenged children enabled us to reflect on how fortunate we are!

The residents happily playing with the dolls and toys donated to them.

"Those who are happiest are those who do the most for others."

- Booker T. Washington

GMIS students singing the popular song 'I have a dream...' by ABBA

## VISIT TO 'YAYASAN SAHABAT ANAK', MENTENG

Some students of Grade 8 and their home room teachers visited the "Yayasan Sahabat Anak" on 5<sup>th</sup> December 2022. The purpose of the visit was to enable our students to see and feel the living conditions of the lesser privileged children in the institute and try our best to identify their needs help these people in need. The group handed over some pairs of shoes which had been donated by the middle school children. In addition to that, the students who visited the Yayasan also donated baskets of fruits, bags of rice, instant noodles, and cooking oil. The highlight of the whole visit was the interaction between the children. They were so happy to talk to one another. The GMIS children sang a few Indonesian popular songs. The residents were familiar with all those songs and so they too joined in the singing of those songs. The young boys and girls in the Yayasan sang the song "Meraih Bintang" by Via Vallen melodiously. Our group did not hesitate to sing along with them and share happy moments. This visit has once again reminded us of the truth in the words of Morgan Freeman, 'How do we change the world? One random act of kindness at a time.'

"It is not how much we give, but how much love we put into giving."

GMIS students and the residents of Yayasan Sahabat Anak having a meaningful interaction.

## MORNING ASSEMBLY GRADE : 8D

Graceful performers Veera, Kalisha, Sayesha, Jazmine, Sasha, Sakhee, Joyeeta and Saanvi after dancing on the Bollywood Song "London Thumakda..."

Melodious singers Callista, Veera, Kalisha and Shivprabha who sang the song "Titanium"

# PRESCHOOL A BEE IN MY BONNET

**"The bees know. Respect the Earth and treat it well."**  
**GMIS Jakarta, 17<sup>th</sup> March 2023**

A glimpse from "The Little Mermaid". Abigail as mermaid and Karen as the wicked witch "Ursula"

## FANTASY CUP 2023

The whole school was excited by the announcement of the Fantasy Cup, a 3v3 basketball tournament, for the middle school students organised by a group of Grade 8 students (Aheer, Callista, Checha, Hanyu, Jayden and Siddhant).

This tournament was held from the 24th of January to the 20th of February 2023 with a total number of 12 teams from grades 6-8. Each team played splendidly and energetically showcasing their amazing teamwork, basketball skills and sportsmanship. Every team played very well but the team that stood out for outstanding performance was 'Oggy' from Grade 8. The second place was given to 'CDG' from Grade 8 and the third place was awarded to the 'Throwers' also from Grade 8.

Through this tournament, we got to see many talented young stars sprouting out of their shells and showcasing their amazing skills on the court. The Fantasy Cup organisers had also presented awards to some of these budding young stars:

- ❖ MVP - Dawon Lee from Grade 6A
- ❖ Most Rebounds and Most Assists- Jayden Bobby Singh from Grade 8B
- ❖ Most Block - Rajvir Singh from Grade 8C
- ❖ Top Scorer- Hanyu Suryadi from Grade 8C

We will continue to organize such exciting tournaments building camaraderie and team spirit. It was highly appreciated by our dear principal Mr. A. P. Singh who always encourages us to strive for the best.

Callista C.Setiawan

Basketball is a beautiful game when the six players on the court, play with one heartbeat

Oggy team won the match against CDG in the finals of the 3v3 tournament. Life is like basketball, sometimes the ball is in your court, and sometimes it's not.

"Good basketball always starts with defense."

- Bobby Knight

Stay humble, and let your feet do the talking. Tricks, dribble, ankle-break and a good smile can lead to a right mind set to win the game.

Hardworking organizers stand tall and pose for a picture with Mr. Shyam Rupchand Jethnani and Mr. A. P. Singh at the award ceremony. Team work makes the dream work!

Awards and certificates were distributed to the proud and well deserved winners of the tournament making sure every player was well appreciated for his hard work. Congratulations to all the participants and organizers.

# GRADE 5 IB-PYP EXHIBITION 2023

**'Transforming our world through collective action.'**

The Grade 5's IB-PYP Exhibition under the transdisciplinary theme 'How the World Works' concluded on 12th April 2023 in Wing C with enthusiasm and style. The event began with the cutting of the ribbon and declaring the exhibition open by our dear Principal. It was followed by a warm welcome by the eloquent emcees Ethan H., Tushita, Skye and Kellyvia. The opening and closing was marked by the musical renditions of the theme song on the 17 UN SDGs, 'Dreamers' and 'We are the World.' The reflectiveness and sense of responsibility of the students was demonstrated as they tried to find the cause and solution to complex issues like impact of technology, animal cruelty, waste management, etc. Students showcased their journey of learning and action taken through their 3D models, charts, skits, songs etc and reflecting their growth as learners. It was a joy to witness as they enthusiastically shared their findings with all the visitors reflecting knowledge and understanding. The event closed with the PYP Headboy and Headgirl Hyun Min and Wilma Wahyu graciously inviting the Principal, Mr. A. P. Singh, to share his thoughts on the event. He congratulated and acknowledged the hard work and effort of each student on their inquiry journey.

A warm welcome by the eloquent emcees Ethan H., Tushita, Skye and Kellyvia.

The ceremonial ribbon cutting to mark the opening of the grade 5 IB-PYP Exhibition by our dear Principal, Mr. A. P. Singh.

PYP Headboy and Headgirl Hyun Min and Wilma graciously conclude the event by thanking the team who worked tirelessly for the success of this event under the guidance of our dear Principal, Mr. A. P. Singh.

## Our students invite our dear Principal to the culmination of their personal inquiry journey and share their findings during the IB-PYP Exhibition.

Students marked the opening and closing of the event by musical renditions of the theme song on the 17 UN SDGs, 'Dreamers' and 'We are the World.'

'The fabric waste managers' Jocelyn and Wilma sharing innovative recycling tips for fabric and uniform waste.

'The Traditionalists' Ilona, Vanessa and Simran fought for promoting traditional instruments like the Sasando, awareness for Citronella oil, and making Batik fashionable.

Pranaya and Madalayne 'The Land Transformers' discussed lifestyle changes to help control climate change with community gardening and keeping our soil healthy.

Hubert, Krisha, Alan and Shayna advocate for a clean community by learning to recycle batteries, perfume bottles, medical waste and showing how to transform plastic bottle waste to ecobricks.

Arnav, Vinaya and Gitae as 'The Telecommunicators' advocated cyber safety, impact of radioactive waves and eco friendly phones.

'The animal lovers' Kaara, Jessie and Mishaya shared thought provoking facts to help the voiceless by requesting banning of zoos, dolphin entertainment and wearing animal fur.

'The Builders' Kellyvia, Lavesh and Joowon brought awareness of the impact of technology in the construction world, environment due to land reclamation and building zero energy homes.

'Humans vs AI' had Anaika, Colleen and Anjani explaining the long term impact of artificial intelligence on unskilled labour, the hospitality business, and understanding the importance of reading to reverse this.

'The environmentalists' Aaditya, Inesh and Luke wished to reduce our carbon footprints through innovative use of shipping containers, biofuels to replace lubricants and cleaning space debris.

Urvi, Aditi, Anaiyah and Shakeela promoted the idea of managing different kinds of waste and suggested some practical and economical ways to handle plastic waste, e-waste and medical waste.

Ethan, Hendra, Kyusung, Minh Nhat, Adway, Sarah and Joeun voiced for a world free from problems like gender inequality, poverty, war, drugs and racism.

Riki and Lin Sheng Kai brought up the cyber issues which are affecting everyone nowadays. They suggested ways to minimise screen time and control addiction of playing games, overusing social media.. etc.

'The Environmentalists' Jeremy, Kalash, Prithwin, Swara, Chriselle and Joash recommended reducing the human activities which are adding on to the 'Global Warming'.

Minh Hong and Ethan Lok promoted the idea of 'Disaster Management' and suggested how the effects of earthquakes and wildfires can be minimised.

Krishna, Nicholas and Ira showed their concern towards the animals through their presentations and shared how human activities put animal-life in danger and promoted their motto 'Every life matters!'

Akshaj, Chirag, Yubin, Nishant and Angelica called for innovative ways to achieve their goal of sustainable living by planting trees, planning a sustainable city, using renewable and clean energy such as solar power, and using innovative technology to warn when an earthquake occurs. They pushed for utilising energy efficient devices such as solar powered irrigation systems on farms and LED bulbs to conserve energy and reduce pollution caused by fossil fuels.

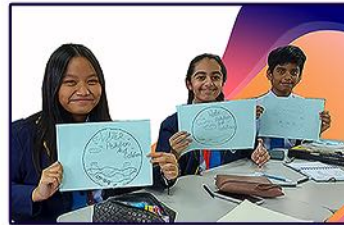

Aryan, Manasvi, Harang, Ritvi and Rachel advocated for reducing global warming and climate change by reducing meat consumption, thoughtfully cutting down on human activities that cause carbon emissions, creating a mini-garden to purify the air, adopting a plant-based diet and being proactive in making wise choices to reduce our carbon footprint.

Yanichel, Tushita, Nandika and Lekisha delighted us with their support for good health and well-being through mindful living and adopting lifestyle changes such as exercise, eating a healthy and balanced diet, caring for the heart, and living a chemical free and stress free life.

The focus was on water pollution and saving marine life as Azzahra, Drishti and Sahishnu argued for cleaner water bodies, cleaner beaches and healthy marine habitats. They advocated reducing water pollution in water bodies by direct personal actions.

Zanetta, Finley, Nishat, Gabriel E. J., and Ethan drew our attention to social issues such as poverty, animal abuse, hunger, war and peace, and gender inequality, and showed us how affirmative action can provide us with solutions to these problems.

Dhanishta, Pratyusha, Arnav and Sai Karthikk passionately appealed for reducing waste by following the 3 Rs and reducing, reusing and recycling waste materials such as plastic, clothes, fashion waste and paper products into useful products to prolong their use and reduce trash.

Laya Gondi and Manasvi Katre choose the topic 'decline in animal and insect population.' Hoang Bich San and Shajarah Shahul Hameed shared Impacts of Humans on Animals and importance of Marine sustainability and Kashvi Dutta suggested end to Wildlife trade. This responsible animal and insect squad was concerned about the different problems the animals and insects are facing and hence the importance of changing our lifestyles to protect them.

Zach Mason Halim, Oliver Benthony Conner, Eldrich Chandra found global warming as an existing issue. They clearly delivered a message that unthoughtful human activities are one of the major causes of global warming and thus we have a moral responsibility to stop these changes. If we do not act soon, environmental changes will bring serious harms to the future generations.

Wars Denzel Masani and Elfrido Chandra found the after effects of wars as the most disturbing issue and they promoted peaceful solutions and importance of communication as a tool to deal with various issues and differences.

Chrisella Michelle Tan and Skye Isabelle Lim presented the impact of music on human beings and other living beings. Its relation with culture. They sang a melodious song to actually prove how music uplifts mood.

So Yeon Kang and Akshatha Nair were concerned that space junk might hinder with future missions to space. They researched and shared various ways to keep the space junk off the functional orbits to avoid accidents.

Agastya Pratap Singh, Sophie Jade Setiadi, Vaibhavi Rai, Ji Yeon Woo, Chon Ji Yeon showed their concern towards the deteriorating quality of water and land which indirectly is impacting not only humans but also plants and animals. They displayed their caring attitude by coming up with lovely suggestions to take care of mother earth.

Alnagara Rakkhanararya Johan and Hyun Min Lee spoke about how kids under the influence of negative peer pressure fall in trap of drug addiction and video games. They mentioned about the importance of having healthy bonds between family members and good health as a key to happiness. Prabin Singha drew our attention towards 'Onchocerciasis' (commonly known as "river blindness") so that he could raise awareness and save many people from losing their precious sight. They clearly stated that the thumb rule and the key to happiness is to maintain good health.

Adhrit Sandilya shared his valuable research on the Mysteries of The Human Brain and various ways to take care of our precious brain. Medhansh Bhatnagar drew our attention towards saving and using wisely the resources of Earth to reduce food insecurity. Park Si Hwan insisted on quality education for the deprived section of children who are captured to work as labor.
